### Covid 19 Safety

Florida Veterinary Behavior Service is continuing to follow CDC Guidelines for social distancing and disinfecting.

During these unprecedented times, we are making every effort to keep you and our team safe. For that reason **we require that you wear a mask to enter the building in our Coral Springs location.**

- If you cannot wear a mask for medical reasons, let us know immediately and we can make plans to provide curbside service where your pet is taken into the building for a physical examination, then brought back to you and the rest of the appointment is via telehealth.
- Please understand that we want to go back to normal just as you do, but we have to protect you, every other pet parent who comes into the building, and our team from illness.

**PLEASE NOTE:** In the Coral Springs location, a mask is required as well as a temperature check before entering the building.

In the West Palm Beach and Stuart locations:

- A mask is required if you are not fully vaccinated.

**When you arrive call or text us at 561-795-9398.**

*A team member will come near your car and walk you directly to the exam room*

*We look forward to helping you and your pet!*
